Inlets/outlets: (1) 1-1/2 in. dia. ferrule with hex nut, (1) 28 in. L x 23 in. W bottom exit. Overall dimensions: 100 in. L x 76 in. W x 84 in. H. Tote breaker. Consist of (3) downward facing spikes. Forklift platform clearance: 61 in. W. Tote breaker dimensions: 96-1/2 in. L x 72-1/2 in. W x 92-1/2 in. H. Model, S/N: n/a.

Tote Breaker/Frozen Fruit Chopper, works good on semi-frozen product, not intended for hard frozen product. Use in conjunction with 6,000 pound capacity forklift to lift up the totes into the stainless spikes. Previously used with cranberry and blueberry. After running through the spike system, the product is dumped into the stainless chopper. Works best with product that was dry prior to freezing . Product with lots of water in it prior to freezing (ie. washed but not completely dried) can become too hard and make spiker ineffective.
