

Mycom Rotary Screw V-Series Compressor

Mfg: Mycom

Model: 200VLD

Stock No. HDCF204.6

Serial No. 2015108

Mycom Rotary Screw V-Series Compressor. Model: 200VLD. S/N: 2015108. Refrigerant: ammonia. Tonnage rating: 312.5. Horsepower: 340. Leak test pressure: 313 psig. Hydrostatic test pressure: 470 psig. Bearing endplay: 0.001 in. Classified as a positive displacement rotary type, the 200VLD compresses gas by continuously using the volume change between two rotating screw profile rotors. Refrigerant is trapped in the clearance between the two-mating rotors, causing an increase in pressure by decreasing the volume. The refrigerant is then discharged as a high-pressure gas. This unit was purchased as a rebuilt spare. Overall dimensions: 4 ft. 6 in. L x 3 ft. 6 in. W x 1ft. 10 in. H.
